

# developing a winning website

the basics

Do you want to stand out?  
**Want a website but don't know where to start?**

## The Developing a Winning Website

seminar is designed to assist you when planning and designing a website that will stand out amongst the rest.

You will have the opportunity to work with a professional website designer to develop a concise design brief for your site. You will also develop a basic site map and structure the content for your website.

You will learn about registering a domain name, website hosting, the types of website development software available, e-marketing and the importance of maintaining your website.
